### Professional Experience

**Coding Temple**, Chicago, IL

**2017 - Present**

#### Full-Stack Web Developer

- Extensively utilized C#, Visual Studio, HTML5, CSS3, JavaScript, AngularJS, jQuery, Bootstrap UI, SQL, T-SQL, Entity Framework, ASP.NET MVC, DOT.NET, & ADO.NET
- Built an E-commerce website from the front-end to back-end functionalities, including Web API to allow the site to access information stored in my database.
- Utilized browser development tools to track layout issues and debug JavaScript content.
- Designed normalized relational databases using SQL Server 2017.
- Created Angular module, controllers, services & directives to enhance user experience.
- ASP.NET data controls are used to format and present data to user.  
Stored procedures were created to enhance the performance of the application.
- Manipulated CSS through user interaction via JavaScript and jQuery. Involved in extensive HTML coding that implements web applications, prototypes, user interface, and websites for clients.
- Designed custom Wireframes for all projects.

**HH Records**, Los Angeles, CA

**2015 – Present**

#### Audio Engineer/Project Manager

- Proficiency in hardware and software involved in the production of commercial music. Cohesion with team members & artists is essential in meeting the strict deadlines of release cycles.

**Independent Production**, Chicago, IL

**2013 – Present**

#### Musical Producer/DJ Contractor

- Experience in performing for private and public events, as well as producing mixes for competitive dance programs and ads.

## Recent Projects Executed

### **Sound Sample Shop**

Built a .NET E-commerce Application from the front to back, using ASP.NET MVC, SQL, HTML5 & CSS with BrainTree API integration: [Sound Store](#).

### **Gem Store**

Created a user-friendly Storefront in Angular 5, with cart, login, and review functionality.

### **Library Card Catalog**

Developed a .NET console application to easily track & retrieve books in a library. Used serialization to save data to the file system.

### **Weather Application**

Developed a Single Page Web Application using JavaScript, HTML, CSS and jQuery. Retrieved weather information using the Yahoo Weather API. Employed a search functionality to display weather by city.

### **Amazon Sign In Page**

Rebuilt a quiz page using HTML and CSS based on a visual asset.

### **Periodic Table**

Used HTML table structure and CSS to create a page with the periodic table of elements.

## Education

**Benet Academy**, Lisle, IL 2009

High School Diploma

**St. Ambrose University**, Davenport, IA 2014

BS in Biology & Psychology
