Professional Experience

Coding Temple, Chicago, IL

2017 - Present

Full-Stack Web Developer

- Extensively utilized Visual Studio, C#, HTML5, CSS3, JavaScript, AngularJS, TypeScript, jQuery, Bootstrap UI, SQL, T-SQL, Entity Framework, ASP.NET MVC & ADO.NET
- Built an E-commerce website from the front-end to back-end functionalities, including Web API to allow the site to access information stored in my database.
- ASP.NET data controls are used to format and present data to user.
- Designed normalized relational databases using SQL Server 2017.
- Stored procedures were created to enhance the performance of the application.
- Created Angular modules, controllers, services & directives to enhance user experience.
- Manipulated CSS through user interaction via JavaScript and jQuery. Involved in extensive HTML coding that implements web applications, prototypes, user interface, and websites for clients.
- Utilized browser development tools to track layout issues and debug JavaScript content.
- Designed custom Wireframes for all projects.
- Edited images in Adobe Photoshop to achieve user-friendly appearances.

HH Records, Los Angeles, CA

2015 – Present

Audio Engineer/Project Manager

- Proficiency in hardware and software involved in the production of commercial music. Cohesion with team members & artists is essential in meeting the strict deadlines of release cycles.

Independent Production, Chicago, IL

2013 – Present

Musical Producer/DJ Contractor

- Experience in performing for private and public events, as well as producing mixes for competitive dance programs and ads.

Recent Projects Executed

Sound Sample Shop

Built a .NET E-commerce Application from the front to back, using ASP.NET MVC, SQL, HTML5 & CSS with BrainTree & SendGrid API integration: [Sound Store](#).

Gem Store

Created a user-friendly Storefront in Angular 5, with cart, login, and review functionality.

Library Card Catalog

Developed a .NET console application to easily track & retrieve books in a library. Used serialization to save data to the file system.

Weather Application

Developed a Single Page Web Application using JavaScript, HTML, CSS and jQuery. Retrieved weather information using the Yahoo Weather API. Employed a search functionality to display weather by city.

Amazon Sign In Page

Rebuilt a quiz page using HTML and CSS based on a visual asset.

Periodic Table

Used HTML table structure and CSS to create a page with the periodic table of elements.

Education

Benet Academy, Lisle, IL 2009

High School Diploma

St. Ambrose University, Davenport, IA 2014

BS in Biology & Psychology
